Creating products. Building relationships.

Circ-Master™

Gecko's Circ-Master pump takes 24-hour filtration to a new level. Higher GPM allows the Circ-Master to operate a high-flow heating system resulting in increased heating efficiency and up to four times the filtration. It is powerful, efficient and quiet.

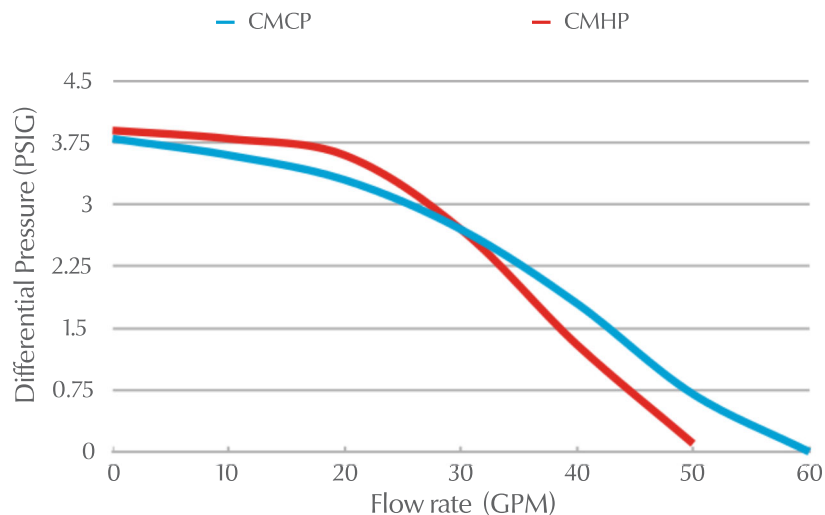

When you sell spas with Aqua-Flo by Gecko pumps, you are selling maximum hydrotherapy performance and energy efficiency. Gecko's consistent reliability keeps service calls to a minimum. This is all part of our commitment to total customer satisfaction.
